Summary

Frontend Developer experienced in translating UI/UX designs into intuitive web applications using HTML, CSS/TailwindCSS, Javascript/Typescript, React or Next.js. Proficient in integrating backend functionality with advanced frontend components to create smooth and engaging user experiences. Committed to leveraging development expertise to elevate existing and upcoming projects, driving creativity and innovation in fast-paced environments.

Skills

Industry Knowledge: Software Development, Web Development, Research, Spatial Analysis, Social media managing, Typing, Photography and GIS Analysis

Tools & Technologies: HTML, CSS, JavaScript, Typescript, Tailwind CSS, React.js, Next.js, HTML5, CSS3, React/Redux, RESTful APIs, Graphql, firebase and Appwrite

Interpersonal Skills: Communication

Additional Technical Skills: Version Control (Git and GitHub), Jest, CI/CD workflows (experience working within pipelines set up by DevOps Engineers)

Work Experience

Pedxo
Remote, Nigeria
Frontend Developer
Sept 2024 – Jan 2025
- Transforms UI/UX designs into interactive React components, fostering creativity and innovation in web development.
- Ensures device-optimized websites for consistent user experiences using HTML5 syntax, ReactJS and Tailwindcss.
- Builds reusable, maintainable components adhering to best practices for scalable and efficient front-end architecture, leveraging ES6+ JavaScript features.
- Collaborates with diverse teams to execute project timelines and deliver high-quality web applications.
- Conducts rigorous testing and debugging for application stability, utilizing React/Redux components.
- Utilizes Git for efficient version control and collaboration on technology products throughout their lifecycle.

TechVerse
Remote, Nigeria
Frontend Developer
Jan 2024 – July 2024
- Developed interactive React components based on UI/UX designs, focusing on creating user-friendly and engaging web interfaces.
- Ensured websites were fully responsive and optimized for various devices using modern HTML5 and CSS3 techniques.
- Created reusable and maintainable components while following best practices for scalable front-end development with ES6+ JavaScript.
- Collaborated with cross-functional teams to meet project deadlines and deliver high-quality web applications.
- Conducted thorough testing and debugging of applications to maintain stability and enhance functionality using React and Redux.
- Leveraged Git for version control, ensuring smooth collaboration and efficient code management throughout the development lifecycle.

Education

University of Benin
Bachelor's degree, Geomatics
Jan 2018 – June 2024
- Grade: 3.92 GPA
- Course work: surveying and mapping, GIS and remote sensing, geodesy and photogrammetry, operational research, data processing

Projects

Kropp-fitness   https://kropp-fitness.vercel.app/

A modern, immersive landing page and mini-site for a fitness brand, designed to showcase services like personal training, group classes, equipment, pricing plans, and client info in a visually compelling manner. It translates a premium gym theme into a clean, responsive React application.

A movie director Portfolio   https://courageobayuwana.com/

This project is a portfolio site built for Courage Obayuwana, a talented Cinematographer, Director, and Colourist. The site was designed to showcase his creative work, including film reels, commercial projects, and color grading samples, in a sleek, professional, and visually rich format that aligns with his artistic identity.

LockedIn   https://lockedin-teal.vercel.app/

LockedIn is a modern personal finance web application that helps users manage their budgets, track transactions, and organize spending into categories.It offers a clean interface with persistent data storage, allowing users to stay on top of their finances effortlessly.
